Bonnie M and Dawn L have completed the 2010 Census New Construction Program and gave a few tips on how to proceed for those counties who have not yet completed this.

Craig R presented a power point presentation on Consolidated Elections and how a GIS process could provide more accurate results with more efficiency. He explained the State Voter Registration System. Craig also made everyone aware that redistricting will take place after the 2010 Census is complete.

Rayce R stated the ISPLS has a GIS committee. He is a member of that committee and will be a great liaison.

Bonnie M discussed fees for the EIRGIS Website and GoToMeeting. We will determine how to pay those fees after we find out about the NSDI CAP.
