

East Idaho Regional GIS

Minutes: February 23, 2010

Meeting opened by Bonnie Moore, President

Attending:	Dawn- Bonneville	Bonnie- Fremont
	Felica- Fremont	Sherry- Jefferson
	Stewart-Dioptra	Tulson-Madison
	Craig- Madison	Eric- Fremont

- County DATA SHARING AGREEMENTS were reviewed. We discussed the importance of stating the appropriate use of shared data. Craig and Dawn will meet together to work on a regional data sharing agreement that will be reviewed by all at the next meeting.
- Stewart Ward presented to the group, topics he would like to present at EIRGIS Meetings. It was approved to have Stewart give a presentation in March.
- Craig reported on Parcel TWG Meeting, Eric reported on Road TWG Meeting.
- Dawn revised the EIRGIS bylaws and distributed copies. We will review them again, adopt them in March, and vote in September at our Annual Meeting.
- Eric gave an interesting presentation on 'Yellowstone Business Assessment'. This survey was performed by BSU's Public Policy Center. One of the goals of the sub region is to promote progress in our region. We discussed how GIS might benefit their efforts.
- In line with our goal of supporting state and federal projects, Eric encouraged the EIRGIS group to participate in the NSDI Ramona GIS Inventory. It is a nationwide inventory assessment of GIS technology, data sharing practices, software, etc. It is hosted by NSGIC, so it is a reliable and credible source. Go to <http://id.gisinventory.net> to complete the survey.
- Next meeting will be March 16, 2010, at Jefferson County.

Good news from Keith Weber!

Hello,

Our NSDI CAP#4 grant proposal for RRC development has been awarded. Congratulations to all who helped write this and put it together.

Expect to hear more from me in the near future as we prepare for some meetings and begin some dialogs regarding this project.
