By-Laws were reviewed. Eric moved to adopt EIRGIS By-Laws. Sherry second the motion and it was passed.

- Dawn and Sherry signed. It will also require Bonnie's signature at the next meeting.
- Eric reported on NSGIC Conference he attended. Conference provided ideas on being successful in developing a business plan for RRC.
- Stewart Ward and from Dioptra gave a presentation on:
  - NGS OPUS solutions "Obtaining Geodetic Coordinates"
  - Scale Factors "Low Distortion Projections"
  - GPS "Real Time Positioning"
- A PowerPoint presentation or informal meeting with commissioners and elected officials to educate them about the Regional Resource Centers would be beneficial in getting their support.
- It was suggested we have a discussion and presentation on GCDB at a future meeting. Minimum starting point for collecting regional control would be to establish all township corners. Counties could require, by ordinance, that data be shared electronically.
- Next meeting will be held after the RRC CAP Kick off Meeting, April 6, 2010, CAES Bldg, Idaho Falls
